NATIONAL MOVEMENT

## CLNM's Chosen Best Practice from the House Project Community

### Coventry House Project

Young People have 4 weeks between getting their keys and moving in. Allowing them the time to decorate carefully rather than rushing it.

### East Dunbartonshire House Project

Are leading the way with their method of getting the Young Peoples feedback to CLNM by sending out post-it notes as a means of collecting feedback.

### Warwickshire House Project

Have started a festival to bring together the young people and their community partners to build relationships and understanding.
