

WHAT DO YOU
DO IN THE
HOUSE PROJECT?

I DEVELOP MY
ORCHIDS

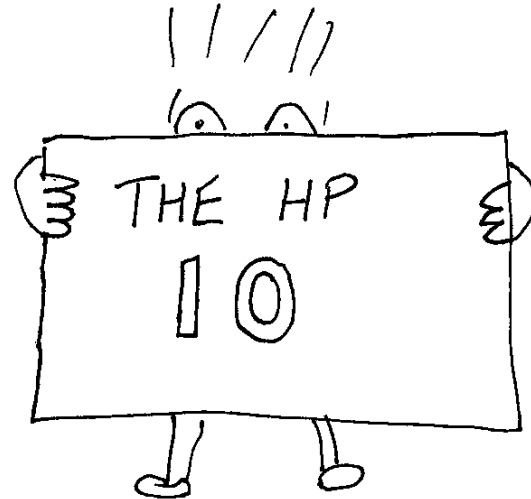

OWNERSHIP

We pitched for money and support to set up a House Project in the first place.

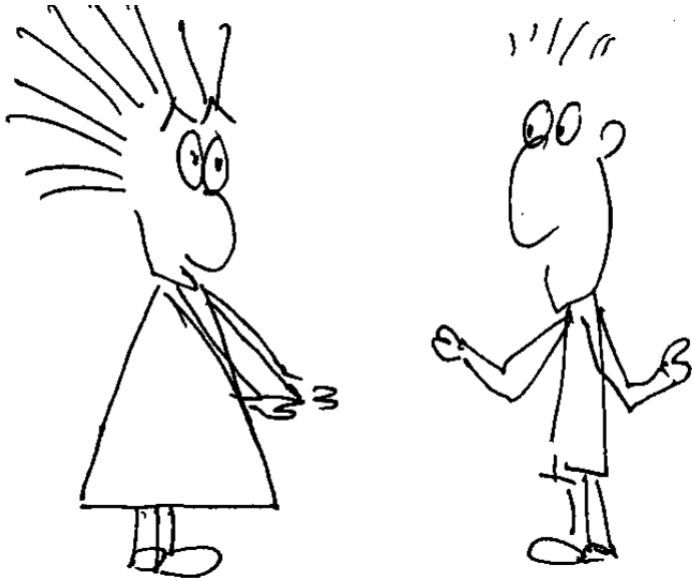

I applied to join.

We came up with a team name for our House Project business.

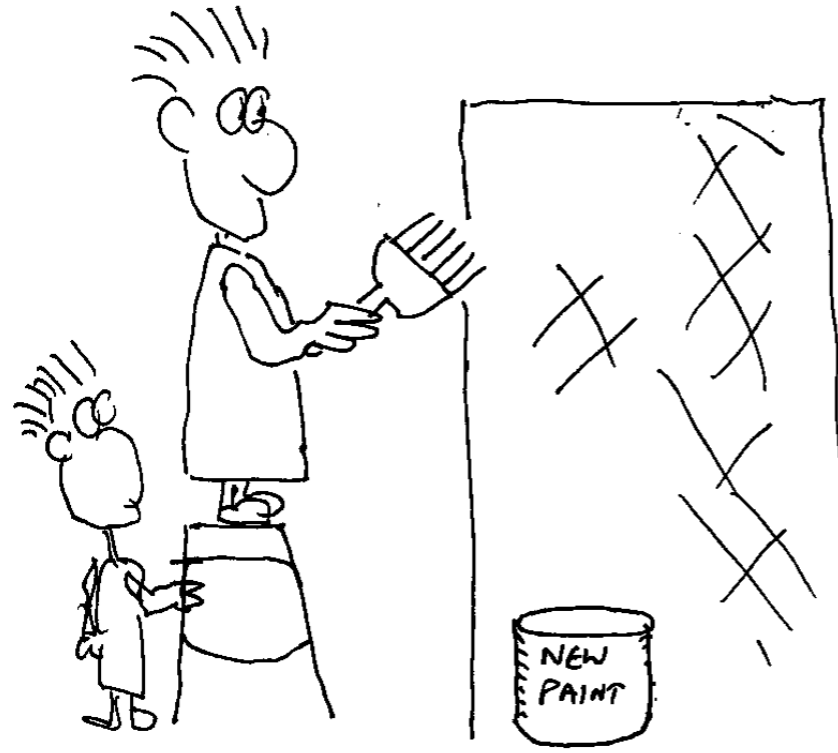

Our ideas can go through the CLNM to the NHP.

RESPONSIBILITY

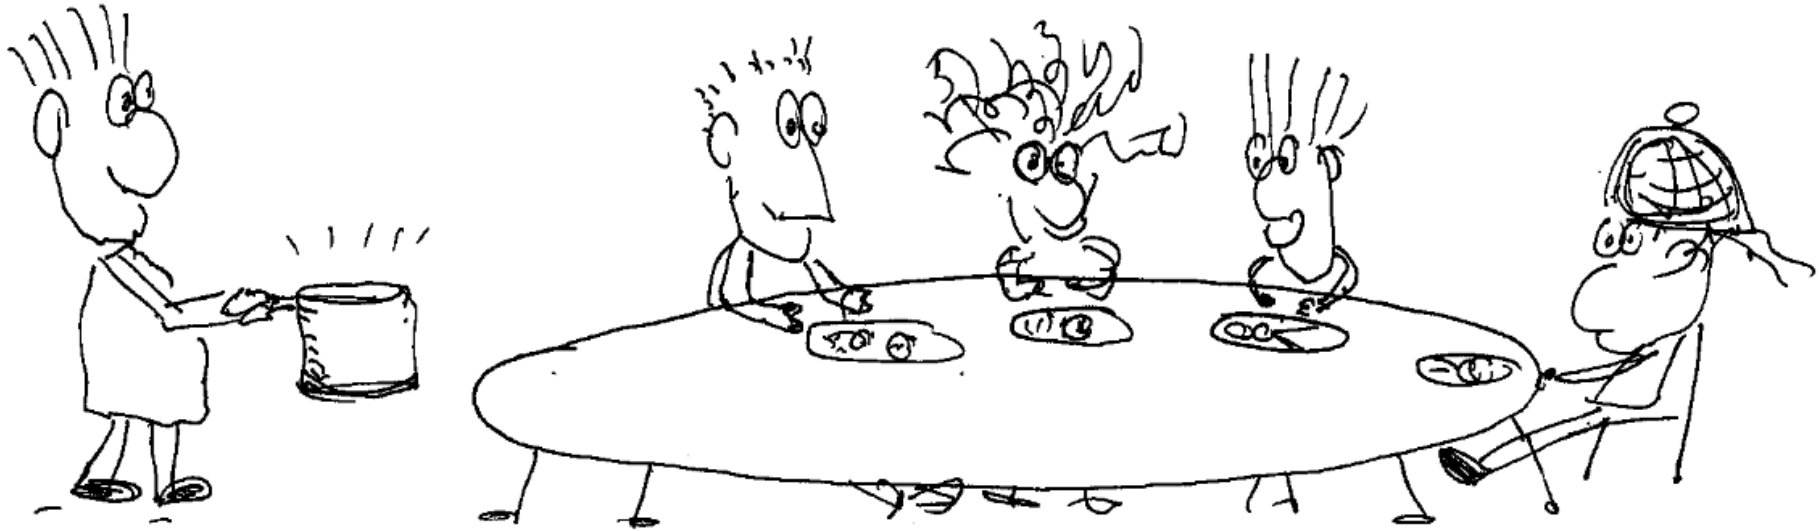

We work together as a team and when things go wrong we sort it out. And we come up with ideas to improve the HP – these can go through the CLNM to the NHP.

We get the job done well and on time.

COMMUNITY

We cook meals for each other as a team.
Next week we are doing a community fund raising event.

HOME

We help each other to get our homes sorted. It saves money and teaches us skills.
And in the end its my home that I've fixed up.

INDEPENDENCE

I paint walls

I know how to look after myself

DIRECTION

I know where I am going.
Experiences in the House Project have
changed my aspirations.
I might be a plumber or an astronaut.

SENSE OF WELLBEING

We did this. We created our House Project, we have mates, we know where we are going, I feel good.
